Subject: Submission of Reduced Risk Rationale for Chlorantraniliprole on Various Crops

Dear Mr. Schaible,

Concurrent with this submission, DuPont is submitting a proposal for tolerances on various crops. DuPont is hereby requesting that the Agency grant Reduced Risk status for the use of chlorantraniliprole on the following crops:

- Peanuts,
- Garlic,
- Dry bulb onion,
- Sugar beet,
- Carrot and
- Turnip

Enclosed with this letter and comprising the proposal are the following documents:

1. Appendix I - Summary of Reduced Risk Advantages and Major Alternative Pesticides
2. Appendix II - Market Impact of Chlorantraniliprole
3. Appendix III - DuPont™ Coragen® Insect Control (EPA Reg. No. 352-729) product label

July 20, 2010

Page 2

The content of this Reduced Risk proposal is based upon my understanding of what may be required as a result of a discussion that we previously had. There have been two prior Reduced Risk proposals for chlorantraniliprole which were agreed to by the Agency. If this proposal is not sufficient or there are any questions or concerns please contact me by phone at 302-451-4517 or via email at [Richard.A.Carver@usa.dupont.com](mailto:Richard.A.Carver@usa.dupont.com).

Regards,

A handwritten signature in black ink that reads "Richard A. Carver". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Richard A. Carver, PhD.

Sr. Product Registration Manager
